

Conference Manager User Guide

CSCI 2210

Maya Garcia Schafer and Jillian Stork

This is a Conference management system

Here is the main menu

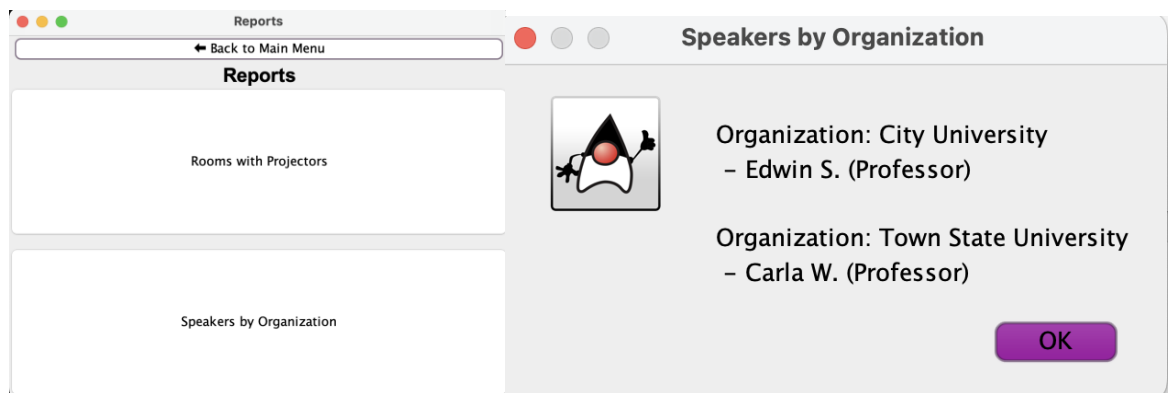

It shows the submenus you can access: Reservations, Schedules, Venues, Rooms, Speakers, Attendees, Organizers, and Reports

There is also an exit button to exit the program

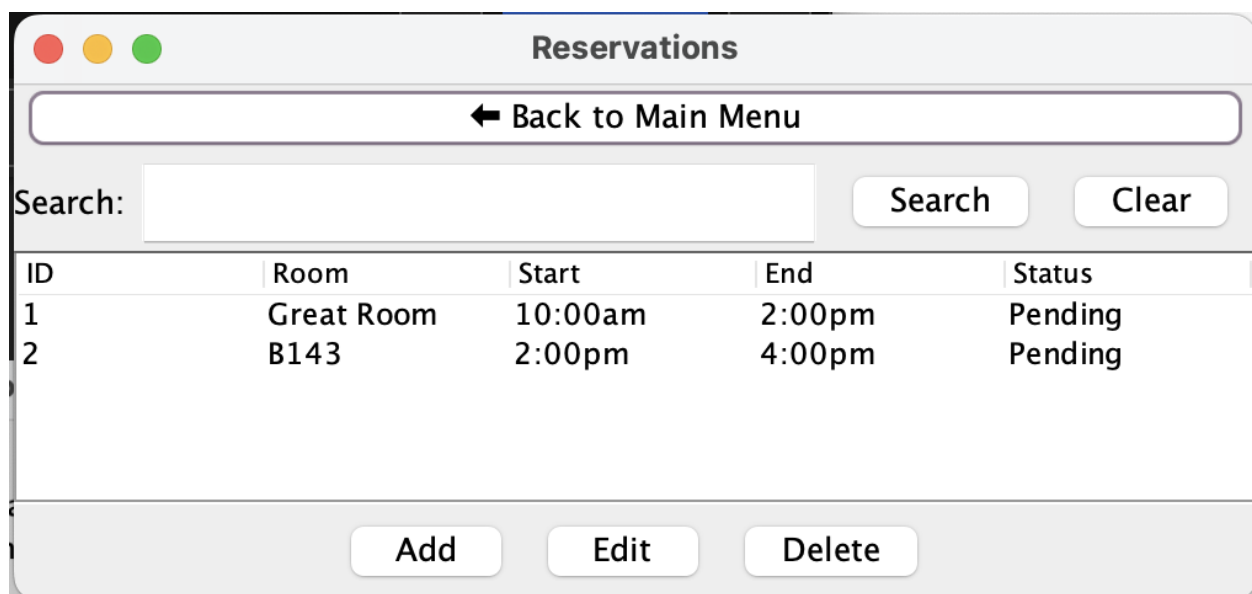

Submenus:

- Reservations- holds reservations(ID#, Room, start time, end time, status)
- Schedules- holds the sessions scheduled (ID#, conference, room, date, start time, end time)
- Venues- holds the possible venue information (ID# and venue name)

- Rooms- holds the information about rooms (ID#, room name, capacity, venue name, projector Boolean, computers it holds)
- Speakers- holds information on speakers attending (ID#, speaker name, speaker email, speaker phone number, speaker organization, speaker job title)
- Attendees-(ID#, attendee name, attendee email, attendee phone number, attendee organization, attendee job)
- Organizers- (ID#, organizer name, organizer email, organizer phone, organizer organization, organizer job title)
- Reports- produces a report on the rooms that have a projector and speakers by organization

Each other submenu has the following functions:

- Back to main menu – exits the submenu and returns to main menu
- Add – you can add an additional entity
- Edit – you can edit an already existing entity's status
- Delete – you can delete an entity
- Search – you can search for an entity
